

Technical Information Food Waste Disposers

Overview

Best practice dictates the removal of food waste quickly and completely from commercial kitchens, eliminating unpleasant odours and spillages, and the risk of contaminating fresh or cooked food. Food waste disposers are essential for the efficient and hygienic removal of preparation waste and table scraps.

IMC food waste disposers are safe and easy to use, and offer unique features and enhanced performance and reliability.

The range of installation options available from IMC ensures that the needs of every caterer can easily be met. For the range summary and appropriate food waste disposer please see the IMC product selector. All IMC food waste disposers can be fitted to a Mechline services box.

Electrical Connection

All electrical work must be carried out by a qualified electrician in accordance with the IEE Codes of Practice.

Product Conformity

IMC food waste disposers conform to the Machine Safety Directive 89/392/EEC as amended by 91/368/EEC and 93/44/EEC and are manufactured under quality system BSEN ISO 9001:2000. They also conform to the protection requirements of the Electro Magnetic Compatibility Directive 89/336/EEC and are manufactured in accordance with harmonised standards EN 50-014-1 Generic Emission and EN 50-014-2 Generic Immunity (plus product specific standards). They also satisfy the essential requirements of the Low Voltage Directive 73/23/EEC amended by 93/68/EEC.

All IMC food waste disposers are WRAS approved and manufactured in accordance with standards BSEN 60335-1 and BSEN 60335-2-16.

Marine Applications

A wide range of marine voltages are available. IMC food waste disposers meet the requirements of regulation 3(1)(c), 4(2) and 5(2)(c) of Annex V of MARPOL 73/78.

Warranty

IMC food waste disposers come with one year parts and labour warranty. (subject to usage and regular maintenance as laid down in the operation and installation manual).

Spare Parts and Sales

Spare parts are available for all major serviceable items. Please contact:

Thee Green Machine service telephone: +31 (0) 653192745 IMC Spares info@thegreenmachine.nl

1604X		
General		
Mounting	Free standing, welded into tabling or sealed into hopper rim welded into tabling.	
Capacity	1850 covers per sitting. 900kg of waste per hour.	
Dimensions (h x w x d)	850-900mm x 514mm x 740mm	
Cut out dimensions - Unit	685mm x 460mm	
Cut out dimensions - Rim	672mm x 444mm	
Electrical information	O/ Z.IIII	
Motor	4.0kW (5½HP)	
Voltages	400-3-50	
Tonages	440-3-60	
Fuse rating	16A - 3 phase	
Operator controls	IP65 rated integral on/off control buttons.	
Installation information	The stated integral on on control bollons.	
Water connection	22mm connection. Minimum pressure (head) of 0.18 bar (1.8m). If using mains water supply specify class A air break with special baffle.	
Water consumption	27-36 litres per minute.	
Waste connection	$2^{\prime\prime}$ BSP threaded flange for connection to 54mm piping, laid to minimum fall of 1 in 7.	
Electrical connection	2.5m mains cable wired into integral controller.	
Other features		
Water control	Solenoid valve for automatic water control.	
Operator safety	Metal baffle and time delayed interlock system.	
Special features	Automatic electronic overload to protect the motor.	
	Automatically reversible motor for extended operating life.	
	Machine status indicator and alarm.	
	Motor seal failure indicator, alarm and immobilizer.	
	Low-load cut-out for energy and water efficiency.	
	Automatic self-cleaning system.	
	Adjustable machine height.	
Customer options		
	Class A airbreak.	
	Magnetic cutlery saver.	
	Cutlery/Silver saver baffle supplied in place of standard baffle at no extra cost.	
	Hopper rim for sitting in tabling for ease of service.	
	Remote control box.
